SUSTAINABLE FROZEN SEAFOOD

All our products (except the shrimps which are directly frozen onboard) benefit from our own technology of conservation: the CAS FRESH. This **worldwide innovation** allows us to:

- 1) **Protect the marine resources** as we only caught only at the **RIGHT SEASON**
- 2) Preserve the products **as FRESH**, they are frozen in time (texture, taste and flavours are intact!)

All our products are certified SASHIMI GRADE meaning they can be eaten RAW.
Enjoy our products in tartare, carpaccio or sashimi!

**100%
SUSTAINABLE
SEAFOOD**

Full traceability from boat to plate.

ORGANIC: This label certifies compliance with the EU regulations on organic aquaculture

ASC: The Aquaculture Stewardship Council manages standards for responsible aquaculture. Products bearing this label come from fish farms that have met these standards

A sustainable approach also supported by **WWF France & WWF Hong-Kong**

MSC: The Marine Stewardship Council is a label which recognises a well-managed and sustainable fishery.

FRENCH SEAFOOD: We select French artisanal fishermen using selective fishing techniques with a low impact on the marine environment. It's live from our French auctions that these fishermen bring back the best of the sea.
